

Peak Reliability		
 <b>PEAKRELIABILITY</b>	<b>ICCP Data Request Procedure</b>	<b>Version 1.0</b>

**APPLICABILITY: Signatories of the Universal Data Sharing Agreement**

**I. Purpose**

Describe the procedure to request real-time ICCP Data from the EHV Data Pool (hosted by Peak Reliability)

**II. Introduction**

Peak Reliability hosts the EHV Data Pool ICCP system that is used to share / exchange ICCP Data between signatories of the Universal Data Sharing Agreement (UDSA).

Sharing of real-time ICCP data is governed by the Universal Data Sharing Agreement (UDSA).

**III. Procedure**

The following steps need to be completed in order to submit access requests for specific ICCP data points to Peak Reliability:

1. Requestor reviews the latest list of all available ICCP data points
  - The ICCP data point list is posted on the PEAKRC.org secure website in the Model – Operational Data Library under the Current Model ICCP Points folder
2. Requestor identifies the specific list of ICCP data points to be requested, and submits an email request to Murat Uludogan ([muludogan@peakrc.com](mailto:muludogan@peakrc.com)) and Gareth Lim ([glim@peakrc.com](mailto:glim@peakrc.com))
3. Peak Reliability EMS IT Support updates the necessary read permissions for the requesting entity on the EHV Data Pool ICCP system
4. Peak Reliability EMS IT Support provides an email notification to the requestor to confirm the requested ICCP points are ready to be accessed via the EHV Data Pool ICCP system.

**Version History:**

Rev.	Date	Action	By	Change Tracking
1.0	02/14/2014	Revised and Reissued	Gareth Lim	Revised ICCP Procedure Steps, and Updated to Peak Reliability template.
